Centre for Learning Innovation and Professional Practice

Graduate Certificate of Education (Tertiary Teaching)

The Graduate Certificate in Education (Tertiary Teaching) (GCETT) is a postgraduate program offered through the Centre for Learning, Innovation and Professional Practice. The GCETT is suited to both academic staff, and professional staff working directly within a tertiary learning and teaching capacity (for example, librarians, learning designers, learning skills advisers).

Location	Online, facilitated learning
Length	2 years part-time (60 credit points = 0.5 EFTSL)
Offered	Courses are offered as a standard cohort (across a standard 12 week semester), extended cohort (across 24 weeks) or intensive cohort (across 6 weeks), depending upon enrolment numbers, semester offered and staff availability.
Commences	Semester 1, 2018

The purpose of this program is to provide participants with contemporary learning and teaching practices to complement the industry and/or research expertise they bring to the higher education setting. The intended learning outcomes of the GCETT are framed within the criteria of the Australian University Teaching Criteria and Standards Framework.

The program recognises that participants work across a range of education sectors and engage with students from a variety of age groups and demographics. Consequently, course content and structure has sufficient flexibility to enable customisation to different cohorts of participants in order to address their specific teaching contexts. Participants will be encouraged and supported to ensure that their learning relates directly to their workplace and areas of specialty. The design of the program has also been guided by the requirements of the Australian Qualifications Framework (AQF) and is particularly suited to participants moving into higher education teaching.
