

# Professional Development Opportunities

Centre for Learning Innovation and Professional Practice

**SEMESTER 2:** These professional development (PD) opportunities are available to all academic and professional staff. These sessions include the pedagogical underpinning of learning technologies and approaches to enhance a student-centred learning experience based on BOLD learning and teaching standards. Sessions are delivered using a range of face-to-face and online modes.

In addition to the centralised PD offered by CLIPP staff below, CLIPP Faculty embedded Learning Designers (CFeLD) are available to conduct **faculty-specific** professional development sessions on the use of a variety of learning technologies to enhance your learning and teaching practices and create student-focused learning environments. Please contact your CFeLD to arrange a session to suit you and your Faculties BOLD learning needs.

To enrol in a session please follow the link to the CLIPP Professional Development Booking page – Semester 2, 2016 and use the *enrolment code*: **pd**
