

For all Training Provider staff

Contract Notification

CN No.	2017-08	Date:	31 March 2017
To:	Chief Executive Officer or equivalent (per the Scope, below)		
Purpose:	To advise Training Providers of changes to the 2017 Funded Courses Report		
Scope:	All VET Funding Contracts		
Subject:	Changes to the Funded Courses Report		

Purpose

- The purpose of this Contract Notification is to advise the Training Provider of variations to the 2017 Funded Courses Report.

Background

- VET Funding Contracts provide the Department with power to vary the Funded Courses Report.

Main Points

- The 2017 Funded Courses Report will be varied as described below.

Variations to the 'Maximum Payable Hours'

- The Maximum Scheduled Hours (Maximum Payable Hours/Maximum Nominal Hours) published for each qualification in the Funded Courses Report are intended to be consistent with those published in the relevant Purchasing Guide.
- In 21 instances, the Maximum Payable Hours as published in the 2017 Funded Courses Report are less than those published in the relevant Purchasing Guide. For these 21 instances, the Maximum Payable Hours are hereby amended (increased) as detailed in Part 1 of Attachment 1. These increases will be applied to all active enrolments.
- In 18 instances, the Maximum Payable Hours as published in the 2017 Funded Courses Report are greater than those published in the relevant Purchasing Guide. For these 18 instances, the Maximum Payable Hours are hereby amended (decreased) as detailed in Part 2 of Attachment 1, effective for all enrolments with a Course Commencement Date from 17 April 2017 (being 10 business days from the date of this Contract Notification).
- With respect to the 18 instances where the Maximum Payable Hours will be decreased, it is noted that only seven of these qualifications have any current government subsidised enrolments. So as not to disadvantage any student who, in good faith, was enrolled in and commenced one of these qualifications prior to 17 April 2017, the Department will honour the Maximum Nominal Hours as originally published for these current students. This may require an "offline" payment to the Training Provider where payments are otherwise blocked by SVTS. The Department will work with the Training Provider as necessary to ensure appropriate payments are received.

Changes to 'Effective CCD to'

- Where a Training Product is superseded or deleted, ASQA's transition arrangements require that there be no new commencements in the Training Product from a particular date. Where a qualification or course is otherwise subsidised under *Skills First*, it is the Department's intention in most instances to match ASQA's transition arrangements in the *Skills First* funding arrangements through the 'Effective CCD to' field of the Funded Courses Report (CCD = Course Commencement Date).
- It has come to the Department's attention that there are some instances where the 'Effective CCD to' dates as currently published in the Funded Courses Report do not properly reflect the above. It is the Department's intention to fix this inconsistency by changing the 'Effective CCD to' dates accordingly.
- Further, the Department has become aware that there are instances where the Funded Courses Report as currently published has 'Effective CCD to' dates in 2017 for courses that are in fact not funded for new commencements under *Skills First* in 2017. To avoid further confusion, the 'Effective CCD to' dates in these cases will be set to 31/12/16. This will not impact any current enrolments.
- Therefore, in order correct the inconsistencies described in both cases above, the 'Effective CCD to' dates in the Funded Courses Report are hereby amended as detailed in Parts 3 and 4 of Attachment 1. This includes 78 instances where the dates are now later (further into the future) – Part 3, and 92 instances where the dates are new earlier (closer to the present) – Part 4.
- The Training Provider should note in particular the instances highlighted in yellow in Part 4 of Attachment 1, as these may have an impact in the coming months.
- These changes are considered reasonable and necessary as they bring relevant dates in line with ASQA's transition arrangements and with *Skills First* funding policy.

Changes to Subsidy and/or RPL Subsidy

- In 28 instances, the Subsidy and/or RPL Subsidy are lower than the Department's original intention due to a clerical error. As such, the Funded Courses Report is hereby varied to increase the Subsidy and/or RPL subsidy as detailed in Part 5 of Attachment 1.
- These changes are effective immediately and will be applied retrospectively to 1 January 2017. If and where relevant, the Training Provider will receive additional payments in the near future such that the increased subsidies are applied to all activity payable for the 2017 collection year.
- In 11 instances, the Subsidy and/or RPL Subsidy are higher than the Department's original intention due to a clerical error. As such, the Funded Courses Report is hereby varied to decrease the Subsidy and/or RPL Subsidy as detailed in Part 6 of Attachment 1. These changes will apply to enrolments with a Course Commencement Date from 17 April 2017 (being 10 business days from the date of this Contract Notification). Note that there are currently no students enrolled in these courses.

Removal of Certain Qualifications from the Funded Courses Report

- In three instances, items have inadvertently been included in the Funded Courses Report in error. In one instance (AHC50210), the qualification was superseded in 2013 and is well beyond the transition period. For two other (ICT60110 and ICT60210), the qualifications are currently listed as Traineeships on the Funded Courses Report, but are not Approved Training Schemes. These three items as identified in Part 7 of Attachment 1 are hereby removed entirely from the Funded Courses Report. The qualifications have no current government subsidised enrolments.

Resources

- All changes are detailed in Attachment 1, and have now been updated into the Funded Courses Report as accessed via the 'Reports' section of SVTS.

Critical Dates

- This Contract Notification is effective immediately and as described above.
