Living on campus and studying online keeps me connected and part of something bigger. I have been presented with so many amazing opportunities and had access to an incredible amount of support that would not have been possible otherwise. I have access to on-campus resources including the library and lecturers, in addition to living with like-minded people assisting with study groups and motivation. I would definitely recommend living on-campus, whether you are studying on-campus.... or online. 😊 -Kelsey
The philosophy at the core of FedUni’s student residential community is that we strive to cultivate and maintain a strong sense of community, with the ultimate aim of enhancing the transition, learning experience and success of our students.

Through FedUni’s highly effective support programs, combined with our unique residential experience, FedUni Living provides an environment where students who live with us are supported in not just their academic pursuits, but importantly their social, cultural and personal development as well.

WHAT IS THE BEST THING ABOUT LIVING ON RESIDENCE?

FROM OUR RESIDENTS

“Meeting new people easily and quickly, especially before uni starts so you have friends within your course along with in other courses. You don’t feel as alone as you would just starting uni without res.”

“Being close to campus”

“Making new friends and being surrounded by like-minded people.”

“Sense of community”

“Having fun during activities, meeting new friends and leadership opportunities.”

“Having teachers and other people being able to help me with my work just a short walk away”

Coming from a small country town, I always knew I wanted to live on campus. Res has not only allowed me convenient access to Uni but also helped me create an instant network of friends.

– Brittany

Moving to Ballarat, I was a little nervous. FedUni Living took all the worry out of moving away from home, with instant friendships formed and a fantastic support network in place on Res! 👍
