2. Essential requirements for admission

Our applicants fall into one of four categories – those who have undertaken studies at the Higher Education level, those that have studied with a TAFE provider, those with the required secondary education studies completed and those with relevant life experience. These are detailed further below in 3. Admission Criteria.

In addition to meeting the requirements detailed in 3. Admission Criteria below, applicants are also required to meet the following additional requirements for this program:

- Some applicants may be required to complete a literacy test. Applicants required to complete the test will be notified.

3. Admission criteria

If you have undertaken previous higher education studies with results at a pass level, including any 'single subjects of study', or have successfully completed a tertiary preparatory program such as the FedUni Foundation Access Studies Program (FAST), and have satisfactorily met any additional requirements detailed above in '2.
