

What documents should I provide with my application?

The documents you need depend on both your **Education Background** and your chosen **Program of Study**:

- Check which Education Background applies to you (below).
- Then go to tables in the next section to look up the requirements of your Program of Study. Some of our programs require further details for admission please refer to our [Essential Requirements](#) page.

If your preferred Program of Study is not available for your Education Background, explore [our pathways to higher study](#), or look at the other program you can access.

What is my Education Background?

Recent Secondary Education (Year 12)

You are considered to have a recent secondary education background if you:

- have completed secondary education (Year 12) within the previous two years; and have NOT completed any further studies after Year 12
- Students completing Year 12 this year will be required to [apply through VTAC here](#).
- Students who have completed further studies after Year 12 will fall either under the “Higher Education Study” or “Vocation Education & Training Study” Education Backgrounds (see below).

Higher Education Study

You are considered to have a higher education background if you have:

- previously studied all or part of a higher education program recently or some time ago; and/or
- previously completed single subjects of study at the higher education level; and/or
- completed a bridging or preparatory course at an Australian University such as the Foundation Access Studies Program (FAST)

Vocation Education & Training Study

You are considered to have a VET background if you have:

- If you have successfully completed a relevant VET qualification at the Certificate III level or higher

Work/Life Experience

You are considered to have a ‘work and life experience’ background if you have:

- left secondary education more than two years ago and haven't undertaken VET or higher education study since then; or
- professional or work experience that shows your readiness for higher education; or
- completed short courses or non-formal programs to prepare you for tertiary education.
- **Please note:** many of our degree programs do not accept work and life experience for entry on its own, but [our pathways to higher study may help.](https://federation.edu.au/starting-at-federation/find-your-course-or-program/pathways) <https://federation.edu.au/starting-at-federation/find-your-course-or-program/pathways>

[You can read more about the different education backgrounds here.](#)
