## Looking to get the skills to work safely in a wind turbine? Then this course is for you.

If you're looking to work on a wind farm, either in its construction or as a part of the long term maintenance of a turbine, this working safely at heights training delivered as a part of the GWO Basic Safety Training will be essential for you.

The training will provide you with the basic safety awareness in the fields of first aid, manual handling, working at heights and fire awareness required to work with wind turbines and wind power generation.

Completing this course will support you in your journey to gain employment in the renewable energy sector (Wind Generation).

## Career Opportunities

This program provides you with the basic skills and knowledge required to work safely in the wind energy generation industry.

## Course Content

### GWO Standard (Qual.) Code - BST Basic Safety Training

#### GWO MODULE CODE

**FA** - First Aid Module

**MH** - Manual Handling Module

**FAW** - Fire Awareness Module

**WAH** - Working at Heights

#### NATIONAL UNIT CODE

**HLTAID009** - Provide CPR

**HLTAID011** - Provide First Aid

**UETDRRF004** - Perform Rescue from a Live LV Panel

**HLTWHS005** - Conduct Manual Task Safely

**CPPFES2005** - Demonstrate First Attack Firefighting Equipment

**RIIWH5204E** - Work Safely at Heights

**PUASAR022** - Participate in Rescue Operations
