Learning content challenges

Content development is the most time consuming aspect of BOLD delivery

| How do I get access to existing content? | Where do I store it so I can find it later? | Hasn't this been done before? | Where do I begin? Exemplars? | Where can I host my video content? | This will take a long time to develop! |

What if there was a way to ....

EQUELLA®

Repurpose and enhance content

Share and re-use existing resources

Discover resources & be inspired by others

Contribute easily to a shared pool of resources

Federation
UNIVERSITY·AUSTRALIA
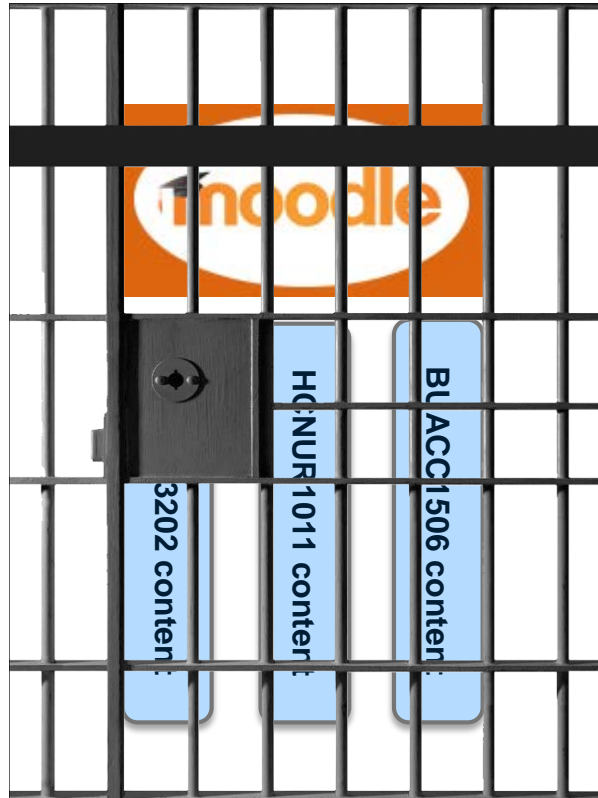

What is Equella?

How Moodle currently stores files

- Silo based
- Restricted access to content for teaching staff limits potential re-use
- Poor multimedia handling
  - Video resources reduce Moodle performance and stability
- Locked away, discourages sharing

Equella encourages & enables sharing

SCENV3202 Moodle content and links to shared Equella content

HCNUR1011 content and links to shared Equella content

BUACC1506 content and links to shared Equella content
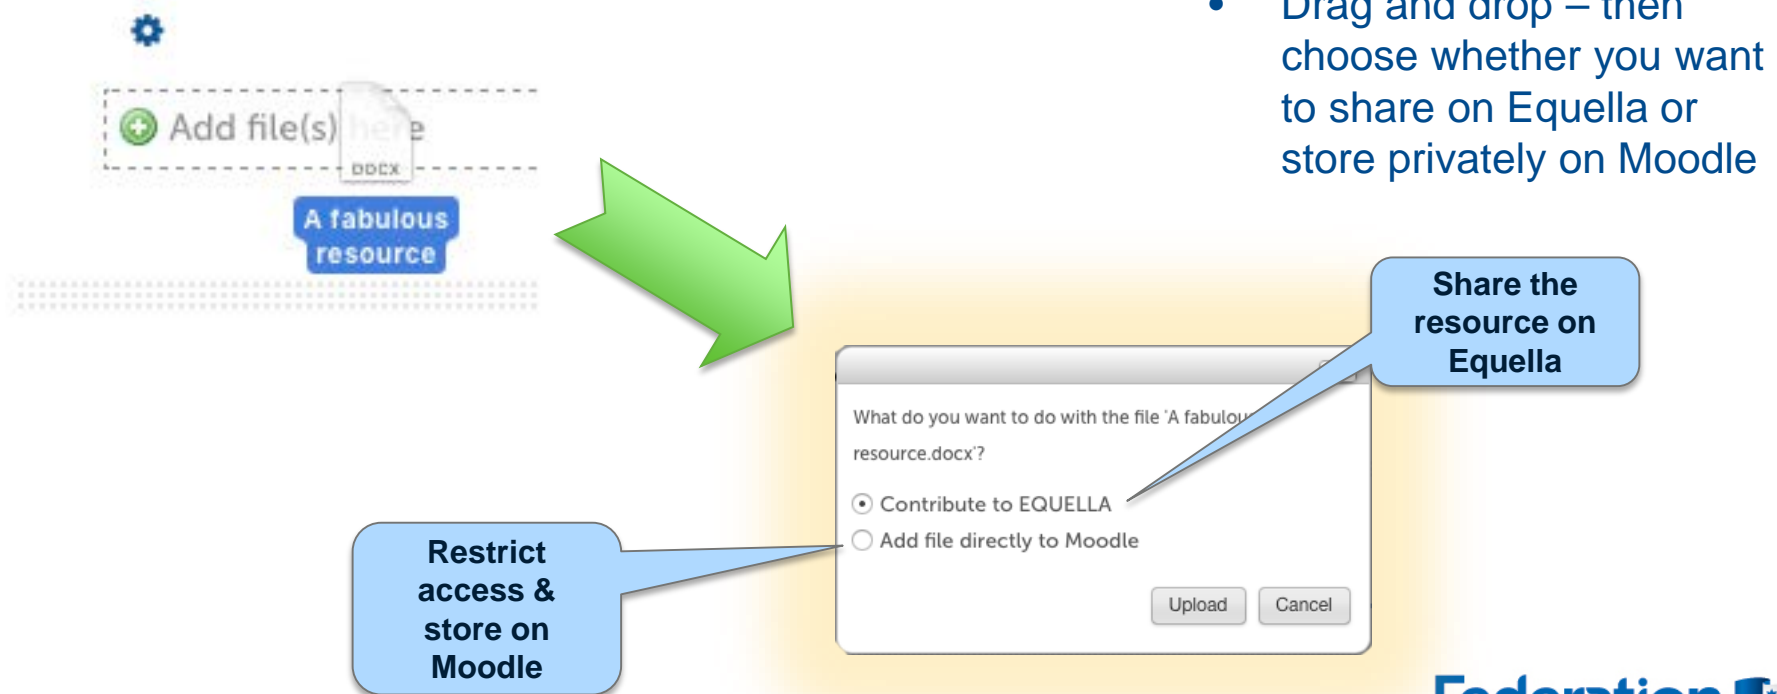

Share the load

Shared –
stored on Equella

- Instructional videos
- Lecture slides and notes
- Narrated PowerPoints
- Learning related content and resources
- Materials supporting learning activities

When you share content through Equella, you're contributing to a pool of resources that will benefit all Federation University staff.
