

Department of Education & Training Fellowship

The International Specialised Skills Institute and the Department of Education (DET), Higher Education and Skills (HES) supports Fellows to drive best practice, innovation and to create a lasting impact within the Victorian VET sector. More than ever and particularly now with the Australian borders still closed due to the COVID-19 pandemic, Australia needs a skilled community of scholars, teachers, craftspeople, tradespeople, professionals, care workers, innovators, artists, and creatives.

The HES Fellowship Program focuses on providing support to talented, passionate and innovative education and VET leaders, to identify international best practice, skills acquisition and professional development opportunities in their respective fields, research these and share their learnings and work towards contextualisation, influencing and implementation within the Australian landscape.

Fellowships are valued at \$13,000

Applications open 6 August and close 24 September 2021.
