# Disability Action Plan 2014 - 2015

## Objective

Federation University Australia (FedUni) is committed to providing an inclusive learning and working environment for people with disability.

'Accessibility, inclusiveness and provision of a supportive learning and research environment are at the heart of Federation University Australia' (Charter 2015).

The University has achieved significant progress in the area of disability over many years. The University also recognises that there are still improvements to be made so that students and staff with disability can experience FedUni on the same basis as those without disability.

The FedUni Disability Action Plan 2014-15 provides clear actions and measurable targets for improvement, and will be used to engage the University community in making improvements across all areas of University operations, to continue to improve accessibility for people with disability in both study and employment and to ensure FedUni is a place where all staff and students can achieve and succeed.

The Plan is guided by the University's Equal Opportunity and Valuing Diversity Policy which states, 'The University will provide reasonable adjustments to the learning and working environment as required, and will strive to apply the principles of inclusion in all of its activities, to ensure all people have equal opportunity to access and participate in University activities.'

## Priority Areas

Actions within this Plan have been grouped into three priority areas:

1. Access  
FedUni will aim to ensure that students and staff with disability have equitable access to facilities, services, information and events.
2. Participation  
FedUni will aim to ensure that students and staff with disability have the opportunity to participate equitably in study and employment.
3. Social Inclusive Culture  
FedUni will foster a culture that demonstrates respect and inclusion for people with disability.

## Consultation

The development of the Plan included information and consultation from various sources. An anonymous online survey was conducted in November 2013 to obtain staff and student input into areas for improvement. This survey was broadly advertised to the University community and to all students registered with the University Disability Liaison Unit. The Equity and Equal Opportunity Office consulted staff across the University to discuss priority areas and to develop actions.

## Next Steps

The *Disability Action Plan 2014-2015* will be communicated with students and staff and will be registered as a publicly available document with the Australian Human Rights Commission. Actions will commence immediately and the FedUni Social Inclusion Committee will review progress at regular intervals, the first being in December 2014. Progress reports will be available on the FedUni website in the Equity and Equal Opportunity section. Input from students and staff is encouraged at any time for the next iteration of the Plan. Please email [equity@federation.edu.au](mailto:equity@federation.edu.au)

## Legislation and Associated Documents

The following legislation and documents have aided the development of the Federation University Australia Disability Action Plan:

- Disability Discrimination Act 1992 (Cwth)
- Disability Standards for Education 2005 (Cwth)
- Disability Standards for Access to Premises – Buildings 2010 (Cwth)
- Equal Opportunity Act 2010 (Vic)
- Federation University Australia Equal Opportunity and Valuing Diversity Policy
- Federation University Australia Social Inclusion Plan 2014-2015

## Definitions

The following definitions are relevant to the Disability Action Plan, as defined in the University's Equal Opportunity and Valuing Diversity Policy:

Discrimination	Refers to unfair or less favourable treatment based on the following actual or assumed personal characteristics as defined under Commonwealth and State laws: sex, gender identity, marital status, pregnancy, breastfeeding, status as a parent or carer, sexual orientation, lawful sexual activity, race, disability, age, industrial activity, physical features, religious beliefs or activities, political beliefs or activities, criminal record, medical record or personal association with a person who has, or is assumed to have, one of these personal characteristics. This concept includes Direct and Indirect Discrimination.
Direct Discrimination:	Occurs if a person is treated less favourably than another person would be treated in the same or similar circumstances, on the basis of an attribute as listed above.
Indirect Discrimination:	Occurs if there is an unreasonable requirement, condition or practice that someone with an attribute cannot comply with and that a higher proportion of people without that attribute can comply with.

# Disability Action Plan 2014 - 2015

Harassment:	Refers to a wide range of deliberate and unintentional behaviours in the teaching, learning, research or workplace environment which may humiliate, intimidate or offend and which are unwelcome and uninvited. It includes behaviour which may be written, verbal, non-verbal or physical (including transmission of inappropriate electronic communications and display of inappropriate material from the internet) and is of a sexual nature or is based on attributes listed under 'Discrimination' above. Harassment has the effect of offending, humiliating or intimidating the person at whom it is directed. It makes the University environment unpleasant and sometimes even hostile. If a person is being harassed, their ability to study and to work effectively is affected.
Disability:	Refers to a total or partial loss of the person's bodily or mental functions; a total or partial loss of a part of the body; the presence in the body of organisms causing disease or illness; the presence in the body of organisms capable of causing disease or illness; the malfunction, malformation or disfigurement of a part of the person's body; a disorder or malfunction that results in the person learning differently from a person without the disorder or malfunction; a disorder, illness or disease that affects a person's thought processes, perception of reality, emotions or judgment or that results in disturbed behaviour. It includes a disability that presently exists; previously existed but no longer exists; may exist in the future; is imputed to a person.
Reasonable adjustment:	A 'reasonable adjustment' is the term used to describe actions or changes which may be required to enable staff and student participation on the same basis as other staff and students. Lack of provision of reasonable adjustment might constitute discrimination. Adjustments might be necessary where the interaction between the learning and working environment and certain student/staff personal characteristics or circumstances has a negative impact on staff/student participation or achievement. Such characteristics and circumstances include having a disability, carer responsibilities, cultural or religious obligations, being Indigenous, having English as a second language. There is no set definition of what is a 'reasonable' adjustment. Each situation needs to be considered in its own circumstances and on its own merits
On the same basis:	In relation to 'reasonable adjustments', is where a person with a certain personal characteristic or circumstance has opportunities and choices that are comparable with those offered to other people. Being treated "on the same basis" may mean being treated differently, particularly where it is necessary to provide reasonable adjustments.
Principles of inclusion:	Is where learning, working and physical environments are designed to be usable by all people, to the greatest extent possible, without the need for adaptation or specialised design, taking into consideration the variety of abilities, disabilities, racial/ethnic backgrounds, and other characteristics of the student and staff body.
