

## On our way to Workday

### ALL STAFF

#### Your learning journey

Start with a one-hour Lunch and Learn webinar in mid-November 2023 and then continue self-paced learning leveraging a suite of guides available from within Workday.

The ideal approach to support you in performing simple, occasional or repetitive actions like requesting absence (aka leave in Workday lingo).

### PEOPLE MANAGERS

#### Your learning journey

Top up with a one-hour Lunch and Learn webinar covering the basics (e.g., how to review and approve transactions), followed by a topic-focused 3-part webinar series (one hour each) starting mid-November 2023.

Suitable to those looking to leverage Workday as a leader's tool and exploring new capabilities for managing their teams through the entire employee lifecycle.

### FUNCTIONAL TEAMS and IDENTIFIED SUPPORT ROLES

#### Your learning journey

Top up with a role-specific curriculum delivered through instructor-led training (ILT) with hands-on activities simulating real-life scenarios, starting in October 2023.

Tailored to roles supporting the business across all people management functions including complex foundational processes, like the People and Culture team.
