Early Childhood Education Studies
Primary Teaching
Secondary Teaching
Joint Degrees
Become a great teacher

Our education and early childhood degrees are dynamic and challenging, while providing a supportive environment for you to explore and thrive.

We nurture independent learning and initiative, as well as collaboration in learning environments that are active, thought-provoking and meaningful. Through varied learning experiences, linked to early childhood and relevant settings, we foster critical, creative and reflective thinking about key knowledge in education.

Our innovative approach to professional experience guides you towards developing strong leadership skills and meaningful learning relationships.

Through active community engagement, you can become involved in team based partnerships, giving you the opportunity to be a part of curriculum development within the education sector.
Entry Requirements
Entry Requirements will be determined by your background.

Recent Secondary Education: Current Year 12 students, including applicants who have completed Year 12 within the previous two years (and have not undertaken Higher Education or VET studies), must meet Year 12 prerequisite entry requirements.

Eligible applicants will be ranked for admission based on their ATAR and ATAR Adjustment Factors – e.g. Special Entry Access Scheme (SEAS) and Subject Adjustments. Applicants will be selected in order of ranking and the number of offers made to applicants will be based on course specific quotas. A minimum ATAR of 70 applies to all Initial Teacher Education degrees.

Non year 12 applicants are people who have undertaken Higher Education or VET studies; completed Year 12 more than 2 years previously; or those who are being considered based on other work/life experience. These applicants will be considered based on relevant background, as well as demonstrated ability to undertake further studies.

Some courses have extra requirements during the application process. Depending on the study area, this may be an interview, folio or audition, test or additional form. These are essential requirements and must be completed in order to be considered for selection.

FedUni offers a range of admission pathways for students who do not meet specified entry requirements.

How to apply
You can apply to FedUni via VTAC or direct application. How you apply, and the subsequent entry requirements will be determined by your applicant background.

Higher Education applicants: Current Year 12 students and applicants applying for more than one institution must apply through VTAC. Non Year 12 students only applying to FedUni can submit a direct application form to FedUni.

TAFE applicants: Please check individual courses as application requirements may vary.

Study modes
You may study full-time or part-time, on-campus, or online (where applicable), or a blend of study modes where available.

Student fees
Fees will vary dependent on your circumstances and what course you apply for.

Scholarships, grants and bursaries
Scholarships, grants and bursaries are available to eligible students and may be awarded based on academic merit, indigenous background, financial challenges and hardship or relocation support.

CONCLUSION
Get online to find out all of the information you need on courses, campuses, scholarships, fees, applying and getting started at FedUni.

- Management
- Media
- Music
- Occupational health and safety
- Outdoor recreation
- Training and development
- Welfare

Note: Additional qualifications may be required to enter some of the above occupations.

Lisa Richards
Graduate: Bachelor of Education (Early Childhood)

Coming from a country town in South Gippsland I didn’t really want to move to the city. The Ballarat campus appealed to me as it has a country feel with all the benefits of living in the city. The friendships that have been made through living on campus and my course are still ones that are with me today.

In my third year I was offered the opportunity of a placement in the UK. I jumped at the chance and it has been a treasured memory and a true highlight of my course. I was also offered a grant from the university for this placement which paid for my flights. I was able to teach in a public and private school in Chester over three weeks, as well as visiting various schools across London. During this placement I learnt about the differences and similarities between the teaching systems of Australia and the UK, and I believe this experience made me a more confident and competent teacher with new ideas to implement in my own teaching.
Professional Experience
(Placement)

We recognise the importance of the professional experience component of students enrolled in education degrees. As part of these degrees, all students will be involved in many opportunities to learn and practise the profession of teaching - right from your first year of study.

The professional experience requirements will vary depending on the particular degree you have enrolled in however, in most cases, you will complete between 60-105 placement days over the duration of your course. We have a Professional Experience team who arrange your placements for you.

You will have supervision and guidance from a Mentor Teacher or Educator, where you will plan, deliver and evaluate lessons and activities in a classroom environment.
Do you enjoy working with children? With this qualification you can begin your career in early childhood.

This certificate is an essential qualification* that ensures you develop the skills and knowledge you need to commence working in the Australian childcare industry, providing care for children from birth up to 12 years old.

Early childhood services play an important role in nurturing the development of all infants and children attending childcare. Educators support the implementation of approved learning frameworks, and assist in supporting children’s wellbeing, learning and development. Depending on the setting, you may work under direct supervision or autonomously.

Much of your time during this course will be spent within children’s services, watching and learning from other professionals. Once you graduate, you can work in pre-school centres, long day care, family day care centres and more - or you may choose to further your knowledge and study our Diploma of Early Childhood Education and Care or the Bachelor of Education (Early Childhood and Primary) degree.

You can study this certificate as a traineeship or as an on-campus course. Note that traineeship eligibility requires that you are employed as a trainee within the Early Childhood Care sector, and that you and your employer are able to enter into a training agreement.

* To work within the early childhood sector, a Certificate III is the minimum qualification required by Australian law.

Further study options
- Diploma of Early Childhood Education and Care
- Bachelor of Education (Early Childhood and Primary)
- Bachelor of Education (Primary)
Diploma of Early Childhood Education and Care

With this diploma, you’ll develop the skills and knowledge you need to provide programs and care for children from birth to up to 12 years old. As a qualified early childhood professional, you can manage and motivate other staff and volunteers and put into practice programs you’ve created. You’ll spend much of your time in this diploma in children’s services, watching and learning from other professionals.

Once you graduate, you can work in pre-school centres, family day care centres, long day care centres and more. You can even go on to study our Bachelor of Education (Early Childhood and Primary).

You can study this diploma as a traineeship or as an on-campus course. Note that traineeship eligibility requires that you are employed as a trainee within the Early Childhood Care sector, and that you and your employer are able to enter into a training agreement.

Further study options
- Bachelor of Education (Early Childhood and Primary)
- Bachelor of Education (Primary)

Please note: All VET programs and training are delivered with Victorian and Commonwealth government funding to eligible individuals.

This is your opportunity degree. Your opportunity to become the great teacher you know you can be.

We have designed this degree to give your teaching career a kick start. If you were disappointed in your ATAR or if you do not meet the subject entry requirements to begin a teaching degree, this is the course for you.

You can use this 3 year degree in 3 ways:

If you did not meet the entry requirements to commence a teaching degree, you can commence your studies with the Bachelor of Education Studies. At the completion of first year, if you have maintained a good academic standard throughout the year, you may be eligible to apply for a transfer into the second year of any of FedUni’s teaching degrees. This means that you may still qualify as a VIT registered teacher within 4 years of study.

Alternatively, you may complete the three years of this degree, and continue into a Master of Teaching in either Secondary, Primary or Early Childhood teaching and qualify as a VIT registered teacher within 4.5 years.

Finally, this is a 3 year generalist degree that can prepare you for work in Learning and Education and allow you to discover more about the education system. The opportunities for graduates are very broad. This degree will qualify you to work in many roles including as an Education Officer developing programs for a wide range of industries or as an Education Support Officer (Integration Aide) working to support students within a school setting. Or you may be interested in working in education policy as a project officer. The opportunities are almost limitless. Also, in your third year, you will undertake the Certificate IV in Training and Education allowing you to teach in Adult Learning settings such as TAFE or Registered Training Organisations (RTO’s).

Pathway to:

- Bachelor of Education (Early Childhood and Primary)
- Bachelor of Education (Primary)
- Bachelor of Education (Primary and Secondary P–10)
- Bachelor of Arts/Bachelor of Education
- Bachelor of Science/Bachelor of Education
- Bachelor of Mathematical Sciences/Bachelor of Education
- Bachelor of Community and Human Services/Bachelor of Education

* Berwick students are able to pathway to the Bachelor of Education (Early Childhood and Primary) or the Bachelor of Education (Primary) only.
Bachelor of Education (Early Childhood and Primary)

Childcare, pre-school and primary school teachers play a key role in the early education and development of children.

With this degree you’ll gain the skills and knowledge to be a confident teacher in settings that range from pre-schools through to Year 6.

You’ll gain experience in schools and various programs which will help you to perfect your skills and develop your understanding of what it takes to be a teacher. You may choose to work with children with disabilities or support those who are disengaged with learning. You’ll learn exactly what type of teacher you are and how to use your unique skills for the benefit of your students.

You can choose your entry point and tailor your studies to finish in three to four years, depending on previous qualifications.

Teaching placement
You will undertake 110 days of supervised teaching placement in both early childhood and primary settings. In addition you may participate in voluntary overseas placements in locations such as Timor Leste, England, China, New Zealand and Nepal.

If you hold a Diploma of Early Childhood Education and Care or equivalent, you will only be required to complete 95 days of teaching placement.

Professional recognition
• Australian Institute of Teaching and School Leadership (AITSL)
• Australian Children’s Education and Care Quality Authority (ACECQA)*
• Victorian Institute of Teaching (VIT)*

*Pending accreditation for 2019 intake.

Pathway/Alternative entry
• Diploma of Early Childhood Education and Care
• Bachelor of Education Studies

Career opportunities
• Day care educator
• Early childhood educator
• Kindergarten teacher
• Preschool teacher
• Primary school teacher

Bachelor of Education Studies Admission Pathway
The Bachelor of Education Studies may be undertaken as an admission pathway into any FedUni teaching degree.

At the completion of first year, if you have maintained a good academic standard throughout the year, you may be eligible to apply for a transfer into the second year of any FedUni teaching degree. See page 7.
Bachelor of Education (Primary)

Childhood experiences created by a great teacher will stay with a child throughout their lifetime. If you want to inspire children and help them achieve their potential, then join us to become part of the next generation of primary teachers.

You will spend time in each year of your degree observing and working with students in school classrooms. You will develop your own teaching identity and learn how to use your own individual skills to support student learning.

You will develop a deep understanding of childhood development, educational theories and practice. You will also learn how to engage children in innovative and purposeful learning. Along with the compulsory education courses, you will have the option of a range of discipline specific electives.

Teaching placement
You will be learning and developing classroom skills from your first semester of study, completing a minimum of 80 days of supervised teaching practice during the four years of your degree. This includes the opportunity to do a diverse teaching practise in an overseas or interstate setting such as Timor Leste, England, China, New Zealand, Nepal, and the Northern Territory.

Professional recognition
• Victorian Institute of Teaching (VIT)*
  *Pending accreditation for 2019 intake.

Further study options
You may also like to consider:
• Bachelor of Education Studies
• Bachelor of Education (Primary and Secondary P–10)
• Bachelor of Education (Early Childhood and Primary)
• Bachelor of Health and Physical Education

Career opportunities
• Primary school teacher up to Year 6.

Extra Requirements
• Personal attributes assessment required
  (Visit vtac.edu.au for details)
• Working with Children Check (WWCC)
• Non-Year 12: Personal statement (some)^
  A literacy and numeracy test and/or interview may be required.
  ^ Refer to specific course information at study.federation.edu.au

Year 12 applicants will be ranked for admission based on ATAR and relevant adjustments. Refer to page 1 for details.

Bachelor of Education Studies Admission Pathway
The Bachelor of Education Studies may be undertaken as an admission pathway into any FedUni teaching degree.

At the completion of first year, if you have maintained a good academic standard throughout the year, you may be eligible to apply for a transfer into the second year of any FedUni teaching degree. See page 7.

Discipline elective options
• Maths
• Science
• English literature/writing
• Inclusive Education stream
  The new Inclusive Education stream will open up your career choices, giving you the opportunity to pursue special education.

Correct at time of printing. Study areas and majors are subject to change. Please refer to study.federation.edu.au
Great teachers provide inspiring, safe and happy learning environments for children and young adults.

If you see yourself supporting, encouraging and sharing your knowledge with students in primary or secondary school settings, this degree is designed for you. You’ll spend time in each year of your degree observing and leading students in school classrooms. You’ll also learn to develop your own teaching identity and how to use your individual skills to help your students learn.

This degree will give you the opportunity to qualify as a general primary school teacher and as a middle years specialist able to teach up to Year 10 in any two of the following teaching areas in secondary schools: Maths, Science, Health, Information & Communication Technologies, English/Literature and History. Your future career will see you as an important member of school communities, where you will work with students to year 10, fellow teachers and parents. The degree is comprised of education studies, curriculum studies, discipline studies and professional experience.

Teaching placement
You will undertake a minimum of 80 days of supervised teaching placement. This includes the opportunity to do a diverse teaching practicum in an overseas or interstate setting such as Timor Leste, England, China, New Zealand, Nepal and the Northern Territory.

Professional recognition
• Victorian Institute of Teaching (VIT)*
  *Pending accreditation for 2019 intake.

Further study options
• Master of Education Studies

You may also like to consider:
• Bachelor of Education (Primary)
• Bachelor of Education (Early Childhood and Primary)
• Bachelor of Health and Physical Education
Bachelor of Arts/Bachelor of Education

You have an interest in the humanities, media and social science area, and would like to teach from Year 7 to VCE students.

We’ll prepare you for this with studies across teaching and learning, youth development and diversity. We’ll help you become an engaging, motivating and innovative secondary school teacher. Perhaps you’ll help students learn languages, perfect their written English or share your love for psychology.

You can teach across Australia in remote communities, thriving regional centres or in our capital cities. Or you might even travel overseas to teach.

Teaching placement
You will undertake a minimum of 80 days of supervised teaching placement. This includes the opportunity during third year for overseas placements in locations such as Timor Leste, England, China, New Zealand, and Nepal.

Professional recognition
• Victorian Institute of Teaching (VIT)*
  *Pending accreditation for 2019 intake.

Further study options
• Master of Education Studies

You may also like to consider:
• Bachelor of Education (Primary)
• Bachelor of Education (Primary and Secondary P–10)
• Bachelor of Health and Physical Education

Career opportunities
As well as preparing students for a range of careers open to Bachelor of Arts graduates, this course helps meet the current and emerging need for well-qualified and competent secondary school teachers (Years 7–12).

Laura Benney
Bachelor of Arts/Bachelor of Education

After graduating as Dux of my school in 2017, I was lucky to receive a Federation University High Achievers Scholarship and transition straight into my dream course, studying secondary teaching at FedUni. Ballarat is my hometown and having a University with such great teaching quality and reputation, especially for education, on my doorstep means that FedUni was the perfect choice for me.

My interests span from educational disadvantage, to educational program design and policy. I’m also interested in international education. I’m looking forward to my teaching placements and getting some real-world perspective and practice in my chosen field.

My teaching disciplines are literature and history and the best thing about my course is coming to class and learning from the passionate and supportive teachers here at FedUni. With the interesting courses I’ve taken, my passion for these subjects has grown.

For those considering starting their higher education at FedUni, it’s one of the best choices you could make. Aside from supportive and experienced staff, the opportunity to get involved with and feel a close part of the FedUni community is unrivalled.

Bachelor of Education Studies Admission Pathway
The Bachelor of Education Studies may be undertaken as an admission pathway into any FedUni teaching degree.

At the completion of first year, if you have maintained a good academic standard throughout the year, you may be eligible to apply for a transfer into the second year of any FedUni teaching degree. See page 7.
Bachelor of Community and Human Services/ Bachelor of Education

A degree that will enable you to teach psychology to secondary school students or become a welfare officer in school or educational settings.

Our four-year degree will prepare you to become a confident, engaging and supportive teacher and/or work in the area of student welfare. You will develop skills in community and health services and learn all about the ethics and skills needed to help improve the lives of others.

You can work with students from Years 7 through to VCE. And you may even choose to work with students in programs where they’ve been identified as ‘at risk’ or disengaged. And throughout your career, you can switch between teaching and working in the community welfare in schools.

During this degree, you’ll spend many of your hours in the field, learning the latest practices and seeing situations unfold in the classroom and in community settings. Many of the contacts you make during these placements can lead to your future career.

Teaching placement
You will undertake a minimum of 80 days of supervised teaching placement. This includes the opportunity during third year for overseas placements in locations such as Timor Leste, England, China, New Zealand, and Nepal.

Professional recognition
• Victorian Institute of Teaching (VIT)*
  *Pending accreditation for 2019 intake.

Further study options
• Master of Education Studies

You may also like to consider:
• Bachelor of Education (Primary)
• Bachelor of Education (Primary and Secondary P–10)
Bachelor of Mathematical Sciences / Bachelor of Education

You enjoy maths and science and want to share your skills with others. You’d like to help students grow in confidence and motivate them at school. You’d like a career that you can take anywhere.

With the Bachelor of Mathematical Sciences / Bachelor of Education, you can prepare yourself for a career as a secondary school teacher, in mathematics, science or IT, with the flexibility to teach middle school years through to VCE. You can also take your skills to other industries for even greater choice.

You will develop skills in mathematics, computing, modelling and statistics, while you develop your own identity as a teacher. You’ll learn how to teach and how to best inspire your students. As with all of our education degrees, you’ll get experience each year in classrooms across the state where you can put your learning into practice with real students.

The Bachelor of Mathematical Sciences component of the degree will provide students with a strong foundation in the basic principles and techniques of mathematics and understanding how mathematics is applied to the real world.

The Bachelor of Education component will prepare you to become a professional educator, with electives including: information technology, physics, chemistry, biology, earth sciences or environmental science. Mathematics is a core subject. Areas of study include: computing (skills), education, mathematical sciences, mathematical statistics, mathematics, mathematics (applied), mathematics (modelling), teaching (secondary).

Teaching placement
You will undertake a minimum of 80 days of supervised teaching placement. This includes the opportunity during third year for overseas placements in locations such as Timor Leste, England, China, New Zealand, and Nepal.

Professional recognition
- Victorian Institute of Teaching (VIT)*
  *Pending accreditation for 2019 intake.

Further study options
- Master of Education Studies
- Bachelor of Education (Primary)
- Bachelor of Education (Primary and Secondary P–10)
If science is your passion and you want to work with young people, we want you in this degree.

You’ll learn about what type of teacher you are and how to use your skills to motivate, support and develop students. When you graduate, you’ll be qualified to teach science from middle years through to VCE. You will also have specialised science skills that will open even more doors throughout your career.

You’ll learn about young people and different learning environments. You’ll also discover how to make sure students feel included and supported in the classroom. Your science subjects are broad and will see you become skilled in environmental science, biology, chemistry, earth science and more. While you’re learning these skills, you’ll practice them in real classrooms throughout your degree.

Teaching placement
You will undertake a minimum of 80 days of supervised teaching placement. This includes the opportunity during third year for overseas placements in Timor Leste, England, China, New Zealand, and Nepal.

Professional recognition
• Victorian Institute of Teaching (VIT)*
  *Pending accreditation for 2019 intake.

Further study options
• Master of Education Studies

You may also like to consider:
• Bachelor of Education (Primary)
• Bachelor of Education (Primary and Secondary P–10)
You want a degree that will give you the opportunity to explore Australia’s superb outdoor environments through activities like bushwalking, canoeing, rock climbing, surfing and mountain biking.

With a degree in Outdoor and Environmental Education you’ll learn leadership, teaching and people skills and put these into practice in a variety of settings.

Your subjects are a blend of hands-on and theoretical work, and include outdoor leadership, community and bush environments, and coastal environments. Your studies will focus on blending hands-on experiences, such as camps, and fieldwork, with the theory learned. Your future may see you teaching in Australia or overseas, or running outdoor education centres. Perhaps you’ll work in resorts, councils or community organisations. And maybe you’ll start your own ecotourism company.

You may go on to study a Masters of Teaching (Secondary) to become a qualified teacher.

This qualification equips Vocational Education and Training (VET) teachers and staff with high-level skills and knowledge to handle the challenges of industry engagement, new modes of learning and a changing VET environment.

Students will enjoy enhanced career opportunities as teachers and trainers within the vocational education and training sector, in TAFE, Registered Training Organisations, industry or adult education settings.

Anna Kirton

Education

From a very young age, I dreamed of becoming a classroom teacher. Coming from a small regional town and being the first child in my family to commit to tertiary studies was rather daunting. Despite this, my transition from high school to university life was a breeze. Having lecturers and tutors who know you by name has given me a sense of belonging at this university.

Living at the residence on campus is extremely convenient, as all my classes are only a short five-minute walk. Having my course and accommodation fully organized has made me extremely excited about new opportunities that may arise. Studying Education has been such an enjoyable time for me. The flexibility, small class sizes, support and the willingness of staff members and mentors have truly made my studies at FedUni a dream come true.
Master of Teaching (Primary)

Duration: 1.5 years full time or 3 years part time
Location: Mt Helen Campus (Ballarat) - Online
Application: Direct/VTAC
Entry Requirements: A recognised Bachelor degree or equivalent diploma.
Extra Requirements: Personal attributes assessment required. (Visit vtac.edu.au for details)

Take your skills from your undergraduate degree to become a teacher. You may be looking to change your career or you’ve decided after finishing your undergraduate degree, that teaching is what you really want to do. You’ll graduate from this degree with the confidence and skills to teach in primary schools across Australia and overseas.

Cassandra Hill
Bachelor of Primary Education

I chose to study at FedUni Gippsland campus as it was so close to home, and it felt like home in comparison to the city-based universities I also looked at. The best thing about studying at FedUni is the amazing friendships I have created with peers and staff. I have also experienced many different placements within a range of primary schools which will help to ensure that all my students have the best chance to learn with different teaching and learning methods.

My overall experience at FedUni has been filled with new friendships, ones that I will keep forever.

Master of Teaching (Secondary)

Duration: 1.5 years full time or 3 years part time
Location: Mt Helen Campus (Ballarat) - Online
Application: Direct/VTAC
Entry Requirements: A recognised Bachelor degree.
Extra Requirements: Personal attributes assessment required. (Visit vtac.edu.au for details)

Build on your undergraduate degree to become a teacher. Develop the skills, knowledge and dispositions to help secondary school students to learn.

School partnership initiatives embedded in our degree will enable you to make rich theory/practice connections. Based on your undergraduate degree, you will have one or two teaching specialisms and when you graduate you can teach in Australia or overseas.

Master of Education Studies

Duration: 2 years
Location: Online
Application: Direct/VTAC
Entry Requirements: A recognised Bachelor degree or equivalent diploma.

Whilst the Master of Education Studies is not an initial teaching qualification, it offers several options:

A. Educational Research Specialisation – includes coursework and a minor thesis;
B. Coursework Pathway – made up entirely of Specialisation courses;
C. Special Education Specialisation (badged stream);
D. Educational Leadership (badged stream);
E. Vocational Education and Training (badged stream);
F. Diversity and Inclusion (badged stream).
Open Day 2018
Sunday, 26 August 2018
Ballarat, Berwick and Gippsland
