

# Master of Speech Pathology (Grad Entry)

## Course Structure Information for Part-Time students

Welcome to Federation University and thank you for your interest in the Master of Speech Pathology (Grad Entry) Program. This letter contains information regarding the structure of the program, for students who are enrolled, or planning to enrol part-time.

A part-time option is available for the first year of the Master of Speech Pathology (Grad Entry) Program; however, the second year does require students to attend full time. In the second year of the program, there are group projects, which is why students are required to attend full time. This means, students who enrol in the part-time option, will complete their qualification in 3 years.

The table below outlines the part-time structure for the program:
